

LIFE AT SCULPTURE DANCE ARTS

What's it like?

Life at Sculpture is a harmonious balance of discipline, creativity and community, designed to support both the technical and personal growth of all our students. Each day centres around Ballet class, providing the essential foundation of strength, precision, and artistry, closely followed by a variety of Contemporary, Jazz and other supplementary technique classes that expand movement vocabulary and versatility.

Further to this, students engage in cross genre performance coaching, repertoire rehearsals and solos, learning the practical skills required for stage presence, confidence, and professional artistry. Academic support and creative workshops complement the dance curriculum, encouraging critical thinking, musicality, and deeper understanding of performance.

Our students enjoy a vibrant college community, sharing ideas, collaborating on projects, and building lifelong friendships with peers who share their passion for dance. With opportunities to explore additional disciplines from Singing and Acting to Aerial Arts, Acrobatics and Latin and Ballroom, each day at Sculpture is dynamic, enriching, and carefully structured to cultivate well rounded, confident, and versatile performers ready to thrive on any stage.

DAY^{TO}DAY

AWAY FROM HOME

STUDENT LIVING

LIVING IN WARRINGTON

Many students choose to live independently during their studies, seeking rental accommodation in Warrington or the surrounding area. This allows students to create a home environment that suits their individual needs, whether living alone or sharing with friends. For overseas students, the college can provide guidance on safe and welcoming host family placements, offering a supportive introduction to life in the UK and helping them feel at home while focusing on their training. Renting locally provides flexibility, convenience, and the opportunity to develop independence while remaining close to the studios and campus facilities. The college supports all students with advice on finding safe, comfortable, and affordable accommodation, ensuring a balanced and positive living experience throughout their studies.

LOCATION | TRANSPORT

Warrington is well connected by road and rail. It sits roughly halfway between Liverpool and Manchester, with direct trains to both cities, making it easy to explore urban life, cultural events, and performances. Local buses and cycling options make commuting within the town straightforward. Both Manchester and Liverpool airports are 20-30 minutes from college.

COST OF LIVING

Compared to larger cities like Manchester or Liverpool, Warrington tends to be more affordable. Rent for shared houses or private apartments is reasonable, and groceries, eateries, and leisure activities are generally cost friendly for students.

AMENITIES | LIFESTYLE

The town has a variety of shops, cafes, restaurants, and supermarkets, alongside leisure facilities, gyms, and green spaces. Students can enjoy a mix of social life and quiet study spots. Cultural and creative activities, including theatres and music venues are accessible locally which complements a performing arts lifestyle.
